

## Compare EzyJamb Door Jamb Profiles

EzyJamb is the flush door jamb system that eliminates the need trims around the door frame and blends seamlessly into any modern square set interior design.

EzyJamb is available in four flush profiles to suit a variety of applications:

- Classic split type jamb (EzyJamb Classic Adjust - EZC)
- Single rabbeted door jamb (EzyJamb Single Rabbet - SRC)
- Inswing door jamb (EzyJamb Inswing Door - ISD)
- Double rabbet door jamb for hotels room partitions (EzyJamb Double Rabbet - DRC)

All EzyJamb profiles:

- Are manufactured by Studco Building Systems, using high quality cold-formed United States Steel.
- Have perforated sides for flush jointing around the drywall, making them the fastest, most economical way to create flush door frames.
- Are specialty coated and can be painted immediately, readily accepting a level 5 finish.
- Have surpassed the 10,000 door slam test, proving their durability.
- Are available with premium RocYork hinges, including concealed hinges.

With four EzyJamb profiles to choose from, we have outlined a few key differences on the next page that will help you to choose the right product for your project.
