As manufacturers of the world renowned EzyJamb door jamb systems, EZ Concept’s openings and finishing products produce minimalist flush finishes by eliminating trims and traditional timber systems for commercial, residential and industrial interiors.
Clean lines, flush finish. The complete solution for modern interiors.

As manufacturers of the world renowned EzyJamb door jamb systems, EZ Concept’s openings and finishings products produce minimalistic flush finishes by eliminating trims and traditional timber systems for commercial, residential and industrial interiors.

Explore our range of opening and finishing products.
EzyJamb® Classic Adjust EZC is a split-type door jamb manufactured from cold rolled steel to produce a strong and secure assembly.

The EzyJamb EZC, comes with perforated sides for flush finishing which produces a contemporary flush finish door jamb with clean lines and inconspicuous detail.
The premium design of the EzyJamb SRC provides a smooth transition from one side of the door jamb allowing a minimalist sophistication in apartments, homes and commercial buildings.

This one-piece frameless door jamb is made custom to perfectly suit your wall thickness for a flush finish.
EzyJamb® Inswing Door Jamb with RockYork Concealed Hinges

EzyJamb® Inswing Door - ISD is the ultimate inswing door jamb system to achieve a seamless look in hallways and corridors.

The incorporation of reinforced edges overcomes the continual damage door jambs are subjected to by normal everyday use.
The latest innovation in EzyJamb® Flush Finish Door Jambs, the Double Rabbet EzyJamb – DRC.

Allow for two doors to be hung in the fire-rated Jamb creating a modern look for interconnecting hotel rooms. The system is complemented by a range of hardware to suit different applications and includes options for single door hanging.
Make your door hinges disappear with the all new RocYork® concealed door hinge from EZ Concept.

This revolutionary architectural breakthrough will allow uninterrupted clean lines around internal doors for the ultimate square-set interior.

RocYork
Concealed Door Hinges

Specially designed and manufactured to partner with the EzyJamb® door jamb systems, the loose pin RocYork® Mortised Hinges are surface mounted with self-tapping screws, making them easy to install.

Mortised Hinges

Specially designed and manufactured to partner with the EzyJamb® door jamb systems, the loose pin RocYork® Non-Mortised Hinges are surface mounted with self-tapping screws, making them easy to install.

Non-Mortised Hinges
The RocYork® No-Ha 2.0 Slide recedes into the door panel and provides a hidden handle solution for EzyJamb swing doors and SlideSet sliding pocket doors. Unlike other handles the RocYork No Ha 2.0 Slide also slides into the wall cavity providing a premium aesthetic.

Available in MDF or brushed stainless steel. Supplied with EzyJamb swing doors.

No-Ha Invisible Handles

These stylishly sleek - non-handed 2-4 power adjustable door closers are suitable for a variety of metal and timber doors for use in projects such as hospitals, care homes, schools, colleges and other high traffic-able areas.

When the door is closed these closers conceal themselves into between the door jamb and frame creating a modern look.

Concealed Closers
CavKit is a flush finish system that trims and caps the drywall edges around the door penetration, to create a pocket door that can be hidden when open and provide privacy when closed, without the look of bulky trims. Designed to perfectly match the EzyJamb door jamb system for swing doors, the CavKit pocket door trim system allows you to create a consistent flush look across all of your interior doors.
The SlideSet Flush Finish Pocket Door System has been designed to provide the absolute minimum of detail giving the ability to completely conceal the door and give the impression that the door does not exist when open, and complete privacy when closed, adding a contemporary and architectural dimension to any project.
AccessDor

Bespoke Access Panels

Available as standard or bespoke solutions, AccessDor Access Panels are flush finished to the wall, with only a 1/8” reveal between the door and wall and a discrete cam latch to inconspicuously blend into its surroundings.

Available in standard sizes or bespoke solutions; AccessDor can be suited to your specification. Combine your AccessDor with concealed hinges and latches for the complete flush finish look.

Various Latch Options

Flush Design

Bespoke double door access panel
EzyPelmet is a two-piece, pre-finished cold-rolled steel section which provides a fast, economical and prestigious solution for creating recessed window pelmets in drywall ceilings.

It provides a simple and discrete transition between the interior ceiling and external windows, curtain wall facades or the building structure.
Cased openings or internal wall ends are made easy with EzyCap.

Save time on site with this durable solution that simply slides onto the end of the drywall to cap the wall end and doesn’t require preparation to paint in with the rest of the wall.

EzyCap
Window and Wall End Capping

Applications for stair balustrades
Inspired ceiling designs command attention using FastCap; this innovative solution easily inserts between two sections of drywall to make light work of difficult rebates, plasterboard profiles and large oversized shadowlines. Recessing feature lighting or hardware, custom finishing and capping of plasterboard is made easy with the FastCap range of custom made finishing sections.
Create a premium trim-free, square-set interior finish with EzyReveal®; the steel window reveal that eliminates the need for moldings and trims.

Using a metal reveal is more durable than timber, as it doesn’t warp or crack over time, especially in sun-exposed areas.
AluBase® Baseboards are a modern alternative to traditional timber baseboards.

Providing a smooth flush finish that blends in with the rest of the EZ Concept range, designers can enjoy the benefit of eliminating the look of baseboards for a superior interior finish.
